# Citizen Diplomacy

Our exchange programs bring groups to Cincinnati to work with Americans in business, government, education, culture, and medicine. We travel to Ukraine to share knowledge, make business and professional contacts, and expand understanding of the world community.

Advice and assistance in areas of critical need in Ukraine include programs in domestic violence prevention, water treatment, early childhood intervention, HIV/AIDS, disease prevention and care, technology, and industry.

We continue to expand programming in many areas. We provide programs and projects that will increase Greater Cincinnati's participation in world affairs and the growth of democracy.

# Why Ukraine?

Ukraine is a newly independent nation and the largest country in Europe. Bordering the Black Sea, it lies between Poland and Russia. Its capitol is Kyiv. The nation was absorbed into the Russian Empire in the late 18th century and into the Soviet Union in 1920. Brutal Soviet rule engineered two artificial famines in which over 10 million died. In World War II, German and Soviet armies were responsible for some 7 million more deaths. Thousands of Ukrainians still suffer from the devastating effects of the nuclear accident at the Chernobyl Nuclear Plant in 1986.

The Ukrainian republic achieved independence in 1991 after the dissolution of the USSR, but democracy is in its infancy as the nation struggles to achieve economic reform, privatization, and the protection of civil liberties.

Most recently, Ukrainians rejected the government corruption left over from Soviet times and changed the course of their history. By massive peaceful demonstrations, they demanded free and fair elections.

**“ We must honor the Ukrainian people for displaying their commitment to democracy.”**

— Sen. Carl Levin

**This new democracy  
deserves our support!**

# Cincinnati's Link to Ukraine

In 1989, before Ukraine became an independent nation, Cincinnati established a Sister City relationship with the city of Kharkiv in Ukraine. The nation's new independence gave the Cincinnati-Kharkiv Sister City Program (CKSCP) the opportunity to help the people of Kharkiv discover the benefits and responsibilities of a free society. Over the past 15 years the people of the two cities have worked in cooperative projects in over 70 areas of mutual interest in the fields of business, culture, medicine, education, social issues, religious freedoms, and human rights. Over 2,500 Cincinnatians and Kharkivites have traveled between the two cities under the auspices of CKSCP to share, teach, learn, and understand. Cincinnati-Kharkiv is known as one of the strongest sister city pairings in the world.

The many successes of CKSCP's programs have also attracted the attention and interest of other communities in Ukraine, and recent programs have included individuals from other parts of Ukraine. It is time to grow.

The Cincinnati-Ukraine Partnership (CUP) continues and expands the success of CKSCP to reach all of Ukraine. Now our expanded focus will need the help of more Greater Cincinnati businesses and individuals to continue the work we are doing, and the work we hope to do.
